## Fire Prevention Equipment Distriuted

Michigan forest protection officials distributed equipment today among emergency forces which will be called into service whenever needed in their respective districts. The fire season has arrived in the lower peninsula and is due in Upper Michigan in about two weeks. In Wisconsin, fire fighters already have been called to quell nearly 100 outbreaks because of unseasonable dryness of the woods. Equipment of the emergency crews consists mainly of shovels, axes, pack pumps and pails.
