Monroe Seeks Henry Recla as City Engineer

MONROE - The Monroe common council after voting Wednes-day night to adopt an ordinance creating the post of city engineer, unanimously adopted a resolution authorizing the city's board of public works to negotiate with Henry Recla, city engineer of Niagara, Wis., for the job. Pay for the job was set at

maximum of \$2,400 a year. Recla has been interviewed by the Monroe board of public works, and it is understood he is ready to come to terms for the job. The council will specify his duties in the near future, which will probably include supervision of street sanitation and sewer work, and doing surveying for the city. Recla has been city engineer at Niagara,

Wis., the past 12 years. Setting up of this job followed lengthy discussion by city of-ficials. The job of street commissioner was recently abolished, and his duties are to be turned over to the new city engineer.
