FOOD FOR FIGHTERS ...AND ON TIME!

Keeping our fighting men fighting . . . that's the first job of America's Railroads these days! It takes tanks and guns and oil, but, above all, food - good. substantial, fightin' food. And every minute of every day the food trains roll

toward the fighting fronts - potatoes from Maine, fruit from Florida, beef from Texas, grain from the prairie states, canned goods from California, dairy products from the Great Lakes Region. To our armed forces at home . . . to MacArthur's

fighters...to the boys in Iceland and North Africa ... to the sailors who man our fighting ships. They're roiling toward Britain, toward Russia and China to help our fighting allies. Yes, thousands upon thousands of carloads of food are moving over America's Railroads every week.

All this in addition to keeping America's home front cating-and cating well.

No. Adolf...no. Tojo... you can't hek us in the food war, either. You can't even come close! And, 60,000 B&O workers, backing up fighting sons and brothers, are going to see that the food gets through to them ...
