Whirligig Beetles Spin, and Boat Bugs Make Rowing Motion

A whirligig is something which turns around. Usually we think of some child's toy, perhaps a merry-go-round, when we use the word.

Nature has made some whirligigs which are not toys. I am thinging of the "whirling beetles," also known as "whirligigs." They spin around on the surface of the water,

Usually a whirligig is less than half an inch long. Some kinds are hardly a quarter of an inch in length. Many ponds have these dark-
