Q. WHAT PORT ranks next to New York in volume of car-go handled? C. N. D.

A. The port of Duluth-Superior ranks second. New York is an ocean port while Duluth (Minn.) and Superior (Wis.) together form the leading inland port in the United States. The harbor is a joint one.

# O. Are birds subject to ac-cidents? M. C. K.

A. Observers have stated that birds survive many accidents. Numerous specimens have shown healed wounds and some have been found with twigs or bark embedded in their bodies.

Some other well-known Soviet inventions have been overlooked by Tass and Pravda, Russia invented the veto in the field of international diplomacy. It was also the first modern nation to indorse free speech-in a controlled way.

As time goes on it shouldn't be too difficult to prove that basketball, which some folks think originated in 1891 in Springfield, Mass., actually was Springfield, Mass., actually was first played with goat bladders on the banks of the Volga in the 14th Century. There is also some evidence that Frank Mer-riwell (real name Merriwello-vitch) was bired by Yale from a Moscow high school to beat Princeton with his famous "jump ball." Or was it hls son, Dick Merriwellovitch, who in-vented the "jump ball" pitch? History is getting so fuzzy. A big question is raised by

A big question is raised by the fact Russia claims to have invented electric lights, tele-phones and radios but did so lit-tia with them for for tle with them for so many years. Is there a Communist plot behind this?

If Russia invented the ma-chine age, why did it come to flower in the western world? Are the Russians inventing these gadgets and exporting them to us in the secret hope we will destroy ourselves with the worries of a mechanized life?

Maybe that is the hidden aim of Soviet scientists. Perhaps they are trying to get us to fret ourselves to death with thinga-majigs.
