Pro Arte and Schoenberg

By STAN WILLIAMS (State Journal Staff Writer) The death of Arnold Schoenberg, internationally famous composer of atonal music, recalled two pleasant meetings with the composer for Ernie Friedlander, cellist of the Pro Arte quartet.

ARNOLD SCHOENBERG

"He had a friendly and natural manner. If we hadn't known who he was we wouldn't have thought he was a celebrity of any kind." The Pro Arte quartet, Friedlander explained, has had not only a high regard for Schoenberg's music but also a personal interest in it and the composer as well, resulting from those meetings.

Hammerheads Aren't Normal

In past years I have written about adventures which people have had with hammerhead sharks, but have told only a little about the formation of this fish. It is one of the strangest objects in the ocean.

When someone speaks of a shark, our minds turn to an ugly and vicious fish with heads which can be called "normal." Most sharks have heads which are normal enough, however mean their natures may be.

Along the shores of the United States, as far north as Massachusetts, sometimes they are caught off the coasts of southern Europe. Some kinds of sharks eat people and some don't. The hammerhead is one which does.
